

Cloudera Data Platform

Table of CONTENTS

Session Number

00

Single Node Cluster

01

Multi Node Cluster

02

Hadoop Ecosystem - Part 1

Sqoop, Hive, Impala

03

Hadoop Ecosystem - Part 2

Kafka, Flink, Spark

04

Certification & Learning Overview

05

CDP Overview & Variants

Elasticache, Neptune & Timestream

06

CDP Private Cloud Base Deployment

07

Cluster Configuration

Config, Service and Host Management

08

Data Storage

HDFS, HBase, Kudu, Ozone & S3

09

Data Ingestion

Sqoop, Nifi, Kafka

10

Data Warehouse

Hive & Impala using Hue

11

Data Compute

Yarn, Tez, Spark

12

Resource Management

Node Labels, cgroups, Capacity Scheduler, Queue Management, Admission Control

13

Cluster Planning, Maintenance & Monitoring

Snapshot, Replication Schedules

14

Cluster Troubleshooting & Upgrade

KMS, HSM & Cloudtrail

15

Cluster Insecurities

16

Security - Part 1

Security Fundamentals & TLS

17

Security - Part 2

Authentication & Authorization

18

Security - Part 3

Encryption, Data Masking, Auditing
